

CREATING IBM CLOUD SERVICE

Date	26 OCTOBER 2022
Team ID	PNT2022TMID05277
Project Name	GAS LEAKAGE MONITORING AND ALERTING SYSTEM FOR INDUSTRIES

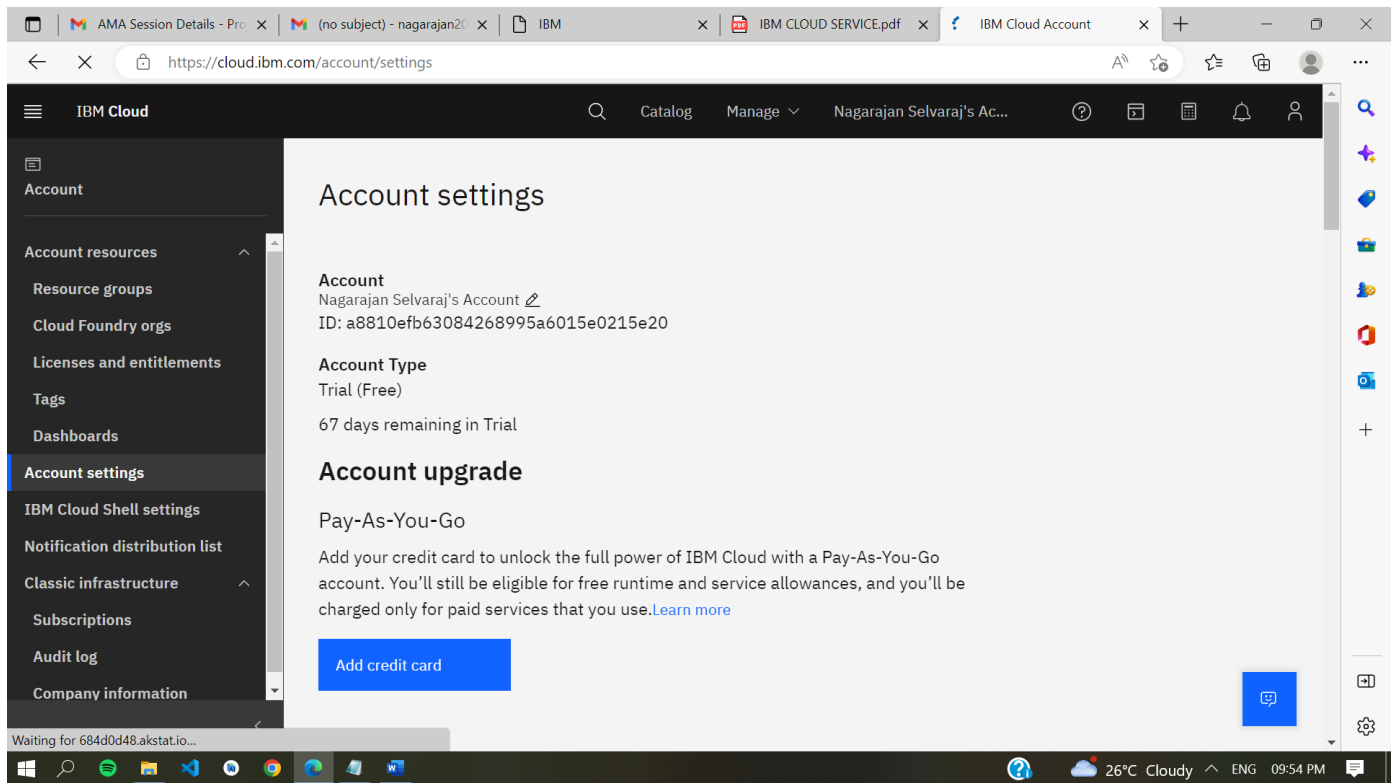

The screenshot displays the IBM Cloud Dashboard interface. At the top, the browser address bar shows the URL <https://cloud.ibm.com>. The dashboard header includes the IBM Cloud logo, a search bar, and navigation links for Catalog, Manage, and the user's account (Nagarajan Selvaraj's Ac...). A 'Create resource' button is prominently displayed in the top right corner.

The main content area is titled 'Dashboard' and features a 'For you' section with five recommended actions, each with a 'Getting started' button and a time estimate:

- Build**: Explore IBM Cloud with this selection of easy starter tutorials and services. (5 min)
- Monitor your resources**: Get visibility into the performance and health of your resources. (5 min)
- Explore IBM Analytics Engine**: Develop and deploy analytics applications using open source Apache Spark and Apache Hadoop. (10 min)
- Create and deploy an application**: Browse our starter kits, and then select one to jump start the process to create and deploy your app. (5 min)
- Create a Kubernetes cluster**: Automate deployment: manage your container apps in a native Kubernetes experience. (5 min)

Below the 'For you' section, there are three quick links: 'User access' (Manage users), 'News' (View all, featuring 'IBM Tech Now: October 24, 2022'), and 'Planned maintenance' (View all). The bottom of the dashboard includes a footer with system information: 26°C Cloudy, ENG, and 09:51 PM.

An IBM Cloud Service created Successfully .
